

2023-24 COVID GUIDELINES

If you or someone in your household presents with symptoms of COVID, please get tested.

- **Results of a positive test must come from a doctor's office, clinic, or hospital. (Home tests are not acceptable as verification.)**
- **Students who test positive for COVID must quarantine for five (5) days from the onset of symptoms or a confirmed positive test, whichever occurred first.**
- **Students should not return to school until they are symptom-free without medication for at least 24 hours. Students will be required to wear a mask until day 10 from the start of symptoms or a confirmed positive test, whichever occurred first.**

As with any illness, if someone does not feel good, we request that they stay home. This includes a fever over 100.4, nausea and vomiting, diarrhea, an itchy rash, eye infections, and active lice/nits.
